Ms. Linda Heron
Chair, Ontario Rivers Alliance
379 Ronka Road
Worthington, ON
P0M 3H0

Dear Ms. Heron,

On March 14, 2014 you requested that the Minister of the Environment and Climate Change require Xeneca Power Development Incorporated (Xeneca) to prepare an Individual Environmental Assessment for the proposed Marter Township Generating Station (known as a Part II Order).

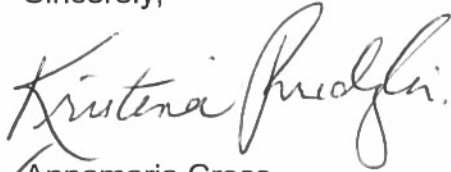

The Ministry of the Environment and Climate Change has sent the attached letter to Xeneca informing them that additional work is required in order to complete the Class Environmental Assessment process for the Marter Township Generating Station (Project) in accordance with the Environmental Assessment Act. I would like to highlight the following for your information:

- The Part II Order request made for the Project will not be given further consideration as the Project is not considered complete.
- Once Xeneca addresses the ministry's request for additional information, it will be required to revise the Environmental Report and post a new Notice of Completion in order to proceed with the Class Environmental Assessment process.
- Should you continue to have outstanding concerns with the Project, you will have an opportunity to submit a Part II Order request during the 30 day public, Aboriginal community and agency review period.

Ms. Linda Heron

Please contact Ms. Dorothy Moszynski, Project Evaluator at dorothy.moszynski@ontario.ca or at 416-212-3693 if you have additional questions regarding the Part II Order process.

Sincerely,

AP
Annamaria Cross
Manager
Environmental Assessment Services Section
